HD Capture Box™ Quick Start Guide

1. Connect a USB flash drive (not included) to the port marked “USB” on the HD Capture Box™. Your HD Capture Box™ will save your recordings on the flash drive.

2. Power your HD Capture Box™ using the included power adapter. Turn on the HD Capture Box™ by pressing the “ON/OFF” button.

3. Hook up your gaming system or other HDMI video source. Plug an HDMI cable into the “out” port on your gaming system or video source. Plug the other end into the “HDMI IN” port on the HD Capture Box™. Finally, plug in your headset microphone into the “MIC” port on the HD Capture Box™ if you’d like to record that too.

4. Connect your TV to the “HDMI OUT” port on the HD Capture Box™. The HD Capture Box™ will “pass through” the signal from the “HDMI IN” port and display it on the TV.

Safety Precautions

1. Do not disassemble the unit.
2. Do not operate the unit around water or rain.
3. Do not operate the unit around any kind of machines (other than your video source).
4. Turn off and unplug the unit when not in use.

Full 1-Year Warranty & Free USA Tech Support

We’re ClearClick®, a small business based in California. We try to provide the best experience possible with our products.

We provide *free USA-based tech support* for our products. All of our products also come with a *full 1-year warranty*. If you need any assistance with this product, please email us at support@clearclick.tech.

HD Capture Box™ Quick Start Guide (continued)

Have a live signal, but don’t see anything on your TV? Hold down the “REC/STOP” button for 5-10 seconds. You may need to do this each time you connect a video source or turn on the capture box.

5. To start recording, just press the “REC/STOP” button! Your gameplay/video will be recorded in MP4 format onto your flash drive. The “REC” button will flash while your video is recording.

6. To stop recording, just press the “REC/STOP” button again. The button will flash while the file is being saved. Do not unplug your flash drive until stops flashing, or the video will not save correctly.

7. To transfer your recorded video(s) to your computer, simply plug the USB flash drive into your PC or Mac computer. Open the video files marked Encode_720p/1080p.mp4.

How To Get Started With VideoPad

If you'd like, you can use the included VideoPad (Master's Edition) software to edit, burn, and convert your videos to other formats. To get started, simply follow the steps below.

1. **Insert the CD into your PC or Mac.** Browse the CD contents and run the installation file for your PC or Mac. Install the software.
2. Next, you must **activate the software.** Go to: <http://www.nchsoftware.com/activation/>

Enter your information and the **serial number on the back of the CD envelope** that it came in. NCH Software will email you an activation code.

NOTE: Having trouble with your serial number or with activation? Please email us at licenses@clearclicksoftware.com. We will diagnose the issue and send you a serial number if necessary.

3. **Run the software and choose to activate** the software. Enter the activation code that was emailed to you.
4. **You can now start using the software!**
5. **For complete instructions on how to use the VideoPad software,** please refer to the User's Manual included in digital PDF format on the VideoPad software CD.

HD Capture Box™ FAQ's & Troubleshooting

1. My recorded videos are blank, or there is no signal being passed through my HD Capture Box™ to my TV.

First, make sure there is a live signal coming from your gaming system or video source.

Before you start recording, hold down the "REC/STOP" button for 5-10 seconds. You may need to do this each time you connect a new video source or turn on the HD Capture Box™.

2. What format does the HD Capture Box™ save my recorded videos in?

The HD Capture Box™ records your videos in MP4 format at a resolution of 1920x1080 (1080p) or 1280x720 (720p). You can use the included VideoPad software to convert, edit, and compress your recordings if you'd like.

3. When recording from a microphone, at what volume level will it be recorded at and overlaid onto the recorded video?

The HD Capture Box™ will record and overlay the audio from a microphone/headset at the volume that it receives. To adjust the volume, you will need to adjust the volume level on your headset.
